### Balance Game

This game tests your sense of balance as you try to stack 12 pirate dolls on board a swaying pirate ship. The bottom of the ship is curved, making it difficult to achieve balance and making the goal a fascinating challenge. Win by stacking the pirates on board the ship in order, in pyramid shape, then balancing the captain at the top of the pyramid. In addition to the pirate dolls, you can build other optional models, such as a princess or precious stones. The model also features a quaint treasure chest that can be used to store the game.

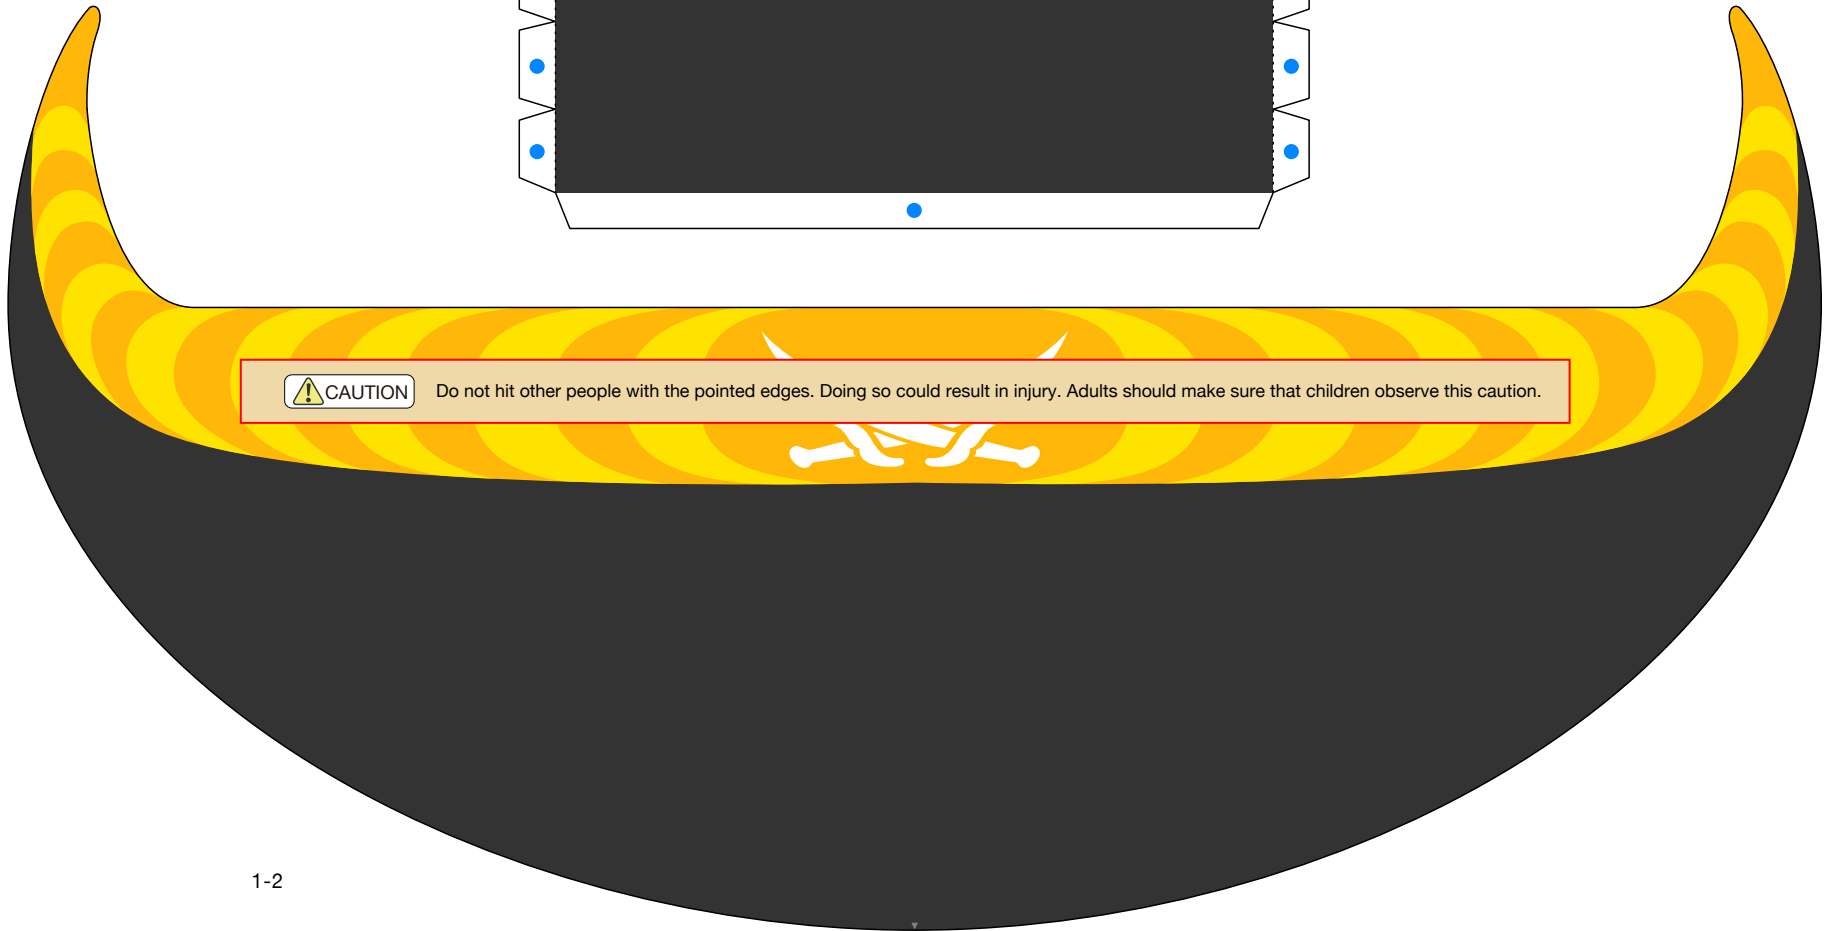

- Parts list (pattern):  
Twenty one A4 sheets (No.1 to No.21)

- No. of Parts: 81

\*Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.
